Considering the great difficulties that in the way, and considering the ulter failure to deal with the Chinese of far more favourably situated places such as San Francisco, the wonder is that we have done so much; for here not only is the yellow population migratory but the white population, official and unofficial, is ever changing. Continuity of policy is thus almost impossible. A Governor is sent out who knows nothing about the Chinese, nothing about the peculiar conditions of life in Eastern Asia, who has perhaps had to deal with peoples whose characteristics are widely different . from those exhibited here. As a necessity, be he strong or weak, the Governor has to rely on the advice of those who have had experience of the colony; and his whole career is often markedly influenced by his first choice of counsellors. SATURDAY'S Gazeite contains an apnouncement that the Governor in Council has altered the date for taking a census of the population of Hongkong and its dependencies from the 30th April to the 20th May next. This change has been made, we believe, on account of the featival of the Queen of Heaven, which takes place at Ch'ik Wan on let May. Thousands of Chinese attend this function, and a numbering of the people at such a time; would be deemed a very incomplete affair. By the 20th of May, the stream of worshippers will have returned, to fill up the census papers.

THE Queen's Road continues to be a disgrace to the P. W. D., irrespective of the intermittent opening up of the roadway by the Drainage and Water Department. A CORRESPONDENT of the Amoy Times writes from Taiwanfoo on the 8th inst. as follows :- There is trouble in the camp here. The Likin officials have been at their old tricks of squeezing and blackmailing, and the British and American Consul is up in arms. This time they tried a squeezepidgeon on Russell & Co., and because that firm would not pay an extra bonus to the hungry crowd led by the Taotai of this robber-infested city, they seiz d a cargo of kerosine, arrested the godown keeper and blockaded the godown of the firm with a squad of likin-runners. The Consul here made a stout fight, but the Taoisi and his crow have little or no fear of old England and the States and laugh at his protests. The only reply he would vouchsafe was that the Russell people had evaded the likin and there must be a careful investigation. This in Formoian diplomacy means a delay of six months and a great blow at the firm's business. They believe of course that the Russells will pay roundly to have things come to an end and are moving heaven and earth to bleed the foreign devils. The Consul must have tele graphed the American Consul at Amoy, because last week we heard that the latter was at Tameui, chin-chinning with the Governor. He must have exhibited considerable anger and threatened a man-ofwar to his Excellency, because lots of telegraphing ensued between Tamsui and here and the Taotsi and his followers have been very quiet ever since. Four days ago they dropped their former claim and with Asiatic craftiness presented a bran new one. It is no longer the wicked Russells who tried to evede the likin! O no! The merchants are good, upright men. But it was some wicked smugglers, who robbed the revenue and did it in the guise of Russell's employees and coolies. We are glad that the Russells and the Amoy Consul have taken the bull by the horns and hope that they will go further and send a gunboat down here. It is full time that the lesson should be taught to the official thieves who disgrace the local administration of this of extortion to their own countrymen and not endeagour to levy tribute from the foreign hongs. We are waiting with interest to see what they will do for us from Amoy.

THE SANITARY BOAKD.

A meeting of the Sanitary Board was held this afternoon. Hon, S. Brown, Surveyor General, presided, and there were also present : Hon. J. H. Stewart Lookhart, Registrar General; Dr P. B. C.
